

1    **Abstract of Disclosure**

2    A card corner cutter includes a body, a first blade, a handle and a second  
3    blade. The body defines a chamber with an open upper end for  
4    receiving scraps. The first blade is secured to the body and located next  
5    to the chamber. The handle is pivotally mounted on the body. The  
6    second blade is secured to the handle.
